PROJECTS

She's Not Here is a 2D video game that aims to literally and metaphorically fight against the disparity of transgender representation in main stream video games. Written in Javascript and uses Crafty.js library

Slothpal is a sloth themed hook-up webapp, except instead of hooking up it's more of a pen pal thing. Written in Flask.

Redlistr is a mobile app that answers the question everyone has when they hear the tigers are dying - "What can I do to help?". Redlistr allows you to match with profiles of endangered animals and provides you with quick resources to prevent harmful human activities.
