

PANOS KARAS

UX / UI DESIGNER
GRAPHIC DESIGNER

ABOUT ME

My Name is Panos Karas.

Believing that the hardest thing is to make something simple is one of my principles.

Design is mostly about solving a problem and improving people's everyday life.

I'm curious, empathetic, experimental and i love pixel-perfect detail.

Having a good 10 years design industry experience, and freelancing with Startups from Israel, Canada & India helps me be as versed in the pure digital and mobile design (UX, UI) as in the traditional print design.

As one of my design "heros", Paul Rand says : " In the world of design , do not search for passing novelty, but for enduring quality"
