## WORK EXPERIENCE

2017/05 – Present

### **Senior Game Programmer - Mobile**

*Futureplay*

Developed two real-time online multiplayer mobile games from concept to launch with small and agile teams. My main responsibility is to develop core gameplay features, but I am also involved in game design, project management and recruitment. Currently working on an unannounced project.

2015/06 – 2016/07

### **Software Engineer - VR, Mobile**

*UL Benchmarks*

Developed a benchmark application that measures the performance and latency of VR hardware. My main responsibility was to develop a new latency measurement system for VR, but I was also involved in maintaining the mobile benchmark applications.

2012/07 – 2015/06

### **Game Developer - Server**

*Air Dice*

Developed over 30 online casino games as part of a small team. My main responsibility was to develop server side game logic, but I also handled most of the deployments.

2011/09 – 2012/07

### **Game Developer - Mobile**

*Nordic Digital Film Company*

Developed two mobile games based on existing media IP's. My main responsibility was to design and implement these mobile games, but I was also involved in project management, outsourcing and fundraising.

## EDUCATION

2016/08 – Present

### **Aalto University**

*Master of Arts – Game Design and Production*

2008/08 – 2014/07

### **Metropolia University of Applied Sciences**

*Bachelor of Engineering – Software Engineering*

2006/07 – 2007/07

### **Pori Brigade**

*Non-Commissioned Officer*

2006/07 – 2007/07

### **Helsingin Normaalityö**

*Upper Secondary School Graduate*
