BIOGRAPHY

I have a passion for out of the box thinking that isn't your run-of-the-mill creative. Campaigns like a highly engaged experiential campaign that I did for Corning Gorilla Glass working for Doremus. It included an ARG campaign that partnered with Imagine Dragons that lead to a live concert event and spanned multiple days online and the real world.

I also was on the Doremus pitch team that brought in multiple large clients, campaigns, and other projects that included leading a team of Designers, Art Directors, and Freelancers on most work.
