PROFILE

I was born in a little town in **Italy** named Solarolo, in the **countryside**: raised up in a farm, immersed in nature and surrounded by animals. I always **loved stories** (my grandma's were my favourite), to draw and to write. I was a **curious** and adventure-addicted (but super emotional) kid and so I'm now!

What I love about my work is to **experiment**, to be connected with other people who help my growth and to **create**, all **together**, **something beautiful**.
